

Konstantine Biganashvili

ABOUT ME

Full-Stack Web Developer and DevOps Engineer with around 6+ years in tech, including 3+ years building applications with Next.js, React and NestJS, and extensive experience managing and building GCP and AWS environments. I hold master's degrees in Computer Science and DevOps and excel at delivering scalable, innovative solutions.

WORK EXPERIENCE

Software Engineer - Exists

May 2023 - July 2025

At Exists, I developed dynamic front-end applications with Next.js and built back-end APIs using NestJS, integrating Supabase for data management and Python scripting to extend functionality. I managed DevOps pipelines and services on AWS and GCP, oversaw GitHub CI/CD workflows, configured Perforce environments, and adapted open-source projects to meet our specific requirements.

Frontend Developer - Web.smart

June 2022 - May 2023

At web.smart, I began as an intern before stepping into a Front-End Developer role, where I crafted user-centric interfaces for internal tools and led the creation of a public-facing application, ensuring both internal and external users enjoyed a seamless, high-performance experience.

IT Specialist - International Black Sea University

September 2019 - March 2022

At International Black Sea University, I served as an IT Specialist, overseeing PC and laptop hardware and software maintenance, managing LAN and WAN networks, administering email and domain user accounts, and implementing antivirus and firewall security measures.

Coordinator - Esports.ge

February 2018 - July 2019

At Esports.ge, I helped organize LAN and online tournaments, liaised with participants to resolve issues, and authored coverage of both global and local esports events.

EDUCATION

Master of DevOps Engineering - Business and Technology University

September 2023 - July 2025

Master of Computer Science - International Black Sea University

September 2020 - July 2023

Bachelor of Computer Science - International Black Sea University

September 2016 - July 2020

Physics and Mathematics - Komarovi Campus School

September 2010 - July 2016

SKILLS AND EXPERIENCE

Core Skills:

- **Languages:** JavaScript, TypeScript, Python
- **Frontend:** React, Next.js, Material UI, Mantine, Tailwind CSS
- **Backend & APIs:** Node.js (Express, NestJS), Supabase integration, REST, GraphQL, WebSockets
- **Animations & Graphics:** GSAP, Motion, Three.js (React-Three), Fabric
- **State Management:** Redux, Context API
- **Databases & CMS:** PostgreSQL, MongoDB, Supabase
- **Version Control & Collaboration:** Git, GitHub, Perforce (Helix Core & Swarm)
- **Cloud & DevOps:** AWS (EC2, S3, Lambda, RDS), GCP (Compute Engine, Cloud Run, Cloud Build, Cloud Composer, BigQuery), Docker, CI/CD (GitHub Actions, Google Cloud Build)
- **Scripting & Automation:** Bash, PowerShell, Python scripting
- **Methodologies:** Agile (Scrum, Kanban)

Familiar With:

- **Frontend:** React Native, Gatsby, Styled Components
- **State Management:** Reselect, Zustand
- **Databases & CMS:** Firebase, Airtable, Contentful, Cloudinary
- **Version Control & Collaboration:** GitLab, Bitbucket
- **Cloud & DevOps:** Kubernetes
